EXPERIENCE

SpeakDuo
Software Engineer
07/2026 – Present | Remote

- Developed multilingual AI grammar and pronunciation feedback, lesson generation, and personalized practice for a production language-learning platform.
- Built vocabulary tracking, spaced repetition exercises, and Elo-based CEFR assessment to support adaptive learning.
- Implemented a multilingual LiveKit voice interview agent and optimized speech recognition for real-time captions using voice activity detection.
- Delivered full-stack features for AI chat, personal grammar practice, and synchronized multiplayer learning activities.

Technologies: Python, FastAPI, Celery, PostgreSQL, Redis, LiveKit, React, TypeScript, Docker.

INTERNSHIPS

SpeakDuo
End-of-studies Internship
01/2026 – 07/2026 | Remote
Full stack Development: Enhancing AI-Driven Adaptive Language Learning

Groupe I-WAY
Summer Internship
07/2025 – 09/2025 | Sfax, Tunisia
ERP Development with **Odoo.**

WebVue
Summer Internship
06/2024 – 07/2024 | Sfax, Tunisia
Web Development with **Laravel**.

Fogits Solutions
Summer Internship
07/2023 – 08/2023 | Sfax, Tunisia
ERP Development with **Odoo**.

EDUCATION

Pre-engineering in Computer Science
Higher Institute of Computer Science and Multimedia
09/2021 – 05/2023 | Sfax, Tunisia

Software Engineering
Higher Institute of Computer Science and Multimedia
09/2023 – 06/2026 | Sfax, Tunisia

COMMUNITY INVOLVEMENT

First Skills Club Association

> **3D Design Supervisor**
> 08/2022 – 08/2025 | Sfax, Tunisia
>
> **3D Design Coach**
> 09/2019 – 06/2023 | Sfax, Tunisia

PROFILE

Software Engineering graduate with experience building Python backends, REST APIs, and AI-powered applications using FastAPI, SQL, and Docker. Contributed to production features at SpeakDuo and built end-to-end AI projects. Seeking a full-time Python Developer role to build reliable backend services and grow in AI engineering.

SKILLS

Front-end — HTML & CSS **(Tailwind)** • **React** (TypeScript, JavaScript ES6+)

Back-end — Python **(FastAPI, Odoo)** • Java **(Spring Boot)**

Database — MySQL • PostgreSQL • *MongoDB*

AI / ML — Generative AI • LLM Applications • NLP • RAG • LangChain • LiveKit Agents

DevOps / Tools — Docker • Git • GitHub • CI/CD • RunPod

PROJECTS

Quranic Shazam
Full-stack AI app that identifies Qur'an reciters and finds likely surah and ayah from audio, with live microphone listening and progressive analysis for ambiguous recitations.
Tech Stack: React, TypeScript, Python, FastAPI, SpeechBrain ECAPA-TDNN, ONNX Runtime, faster-whisper, cosine similarity, Docker

Odoo Budget Management with Integrated AI Chatbot
ERP-based Budget Analytics & Natural Language Financial Assistant
Tech Stack: Odoo 13 (Python), PostgreSQL, XML/QWeb, Gemini API, JS, LangChain, RAG

Qafiya
Full-stack AI app for Arabic poetry generation, meter and rhyme analysis, and targeted verse revision, with automatic text vocalization.
Tech Stack: Python, FastAPI, Gemini API, PyArud, ONNX Runtime, React, TypeScript, Docker

LANGUAGES

Arabic — Native/Bilingual

English — Fluent

French — Fluent

German — Basic

CERTIFICATES

- KodeKloud: Python API Development with FastAPI
- Scrimba: Learn React
- IBM: Developing Front-End Apps with React
